

VFR RENOVATION CHECKLIST

Done		System	Task	Parts			
check	date			name(s)	#/source	bought/notes	cost
<input type="checkbox"/>		Fuel	remove gas tank assy				
<input type="checkbox"/>			remove air box assy				
<input type="checkbox"/>			remove carb assembly				
<input type="checkbox"/>			inspect carburetors - determine parts needed	jet tools? jets?			
<input type="checkbox"/>			partly disassemble/clean carburetors	carb cleaner, baking pan			
<input type="checkbox"/>			reassemble carbs	gasket/seal set			
<input type="checkbox"/>			remove both hand grips				
<input type="checkbox"/>			clean/lube throttle barrel/grip				
<input type="checkbox"/>			remove/clean/inspect throttle cables				
<input type="checkbox"/>			remove/clean/inspect choke cable				
<input type="checkbox"/>			clean/inspect choke lever assy				
<input type="checkbox"/>			replace fuel filter				
<input type="checkbox"/>			clean/inspect fuel lines	fuel line/tubing (as needed)			
<input type="checkbox"/>			clean gas tank				
<input type="checkbox"/>			clean/inspect fuel valve/screen				
<input type="checkbox"/>			check fuel level sensor connection/function				
<input type="checkbox"/>		[Cooling]	replace thermostat	thermostat			
<input type="checkbox"/>		[Cooling]	replace thermosensor	thermosensor			
<input type="checkbox"/>			reinstall carbs				
<input type="checkbox"/>			install/replace choke cable	choke cable (if needed)			
<input type="checkbox"/>			install/replace throttle cables	throttle cables (if needed)			
<input type="checkbox"/>			clean/inspect air box				
<input type="checkbox"/>			blow out or install new air filter	air filter (if needed)			
<input type="checkbox"/>			clean/oil air sub filter				
<input type="checkbox"/>			reinstall air box				
<input type="checkbox"/>							
<input type="checkbox"/>		Oil/Lube	drain oil				
<input type="checkbox"/>			replace oil filter	oil filter			
<input type="checkbox"/>			clean/inspect oil cooler, lines	oil line/tubing (as needed)			
<input type="checkbox"/>							
<input type="checkbox"/>		Cooling	remove/check/clean radiator cap				
<input type="checkbox"/>			drain coolant (pull lower hose at water pump)				
<input type="checkbox"/>			flush radiator				
<input type="checkbox"/>			replace/repair coolant overflow bottle				
<input type="checkbox"/>			raise radiator for engine access				
<input type="checkbox"/>		[Electrical]	replace front spark plugs	spark plugs			
<input type="checkbox"/>			clean/inspect coolant hoses	coolant hoses (as needed)			
<input type="checkbox"/>			check water pump				
<input type="checkbox"/>			clean/refinish water pump cover				
<input type="checkbox"/>							
<input type="checkbox"/>			remove rear fairing assembly				
<input type="checkbox"/>		Electrical	remove battery				
<input type="checkbox"/>			check/replace rectifier/regulator, wiring	Honda P/N 31600-MY7-305 (or later)			
<input type="checkbox"/>			troubleshoot speedometer				
<input type="checkbox"/>			replace rear spark plugs	spark plugs			
<input type="checkbox"/>							
<input type="checkbox"/>		Body	disassemble upper cowls				
<input type="checkbox"/>			polish windscreen				
<input type="checkbox"/>							
<input type="checkbox"/>		Brakes	drain brake hydraulics				
<input type="checkbox"/>			clean/inspect front master				
<input type="checkbox"/>			clean/inspect rear master				
<input type="checkbox"/>			replace rear brake pedal/foot rest assembly	rear brake pedal, right foot rest			
<input type="checkbox"/>			clean/inspect front brake calipers	rebuild kit/seals (if needed)			
<input type="checkbox"/>			replace front brake pads	front brake pads			
<input type="checkbox"/>			clean/inspect rear brake caliper	rebuild kit/seals (if needed)			
<input type="checkbox"/>			replace rear brake pads	rear brake pads			
<input type="checkbox"/>			replace front brake lines	stainless steel brake line kit			
<input type="checkbox"/>			replace rear brake line	stainless steel brake line kit			
<input type="checkbox"/>			clean/polish front rotors				
<input type="checkbox"/>			clean/polish rear rotor				
<input type="checkbox"/>			replace fluid/bleed front brakes	DOT4 brake fluid			
<input type="checkbox"/>							

Done	System	Task	Parts	#/source	bought/notes	cost
check	date		name(s)			
<input type="checkbox"/>		Clutch	drain clutch hydraulics			
<input type="checkbox"/>			clean/inspect master cylinder			
<input type="checkbox"/>			clean/inspect slave cylinder			
<input type="checkbox"/>			replace clutch hose	stainless steel clutch line kit		
<input type="checkbox"/>			replace fluid/bleed clutch			
<input type="checkbox"/>		>> reassembly: replace hand grips	handlebar grips			
<input type="checkbox"/>						
<input type="checkbox"/>	Chain/Sprockets	clean/inspect both sprockets	sprocket(s) (as needed)			
<input type="checkbox"/>		clean/inspect chain				
<input type="checkbox"/>		adjust chain	new chain (as needed)			
<input type="checkbox"/>						
<input type="checkbox"/>	Suspension, Wheels & Tires	change fork oil				
<input type="checkbox"/>		remove/replace fork seals	fork seals, dust seals			
<input type="checkbox"/>		clean/polish fork legs				
<input type="checkbox"/>		clean/inspect/lube steering head bearings				
<input type="checkbox"/>		clean/inspect/lube front wheel bearings				
<input type="checkbox"/>		clean/polish front wheel				
<input type="checkbox"/>		clean/inspect rear shock assy	rebuilt shock (as needed)			
<input type="checkbox"/>		clean/polish rear wheel				
<input type="checkbox"/>		replace front tire	front tire			
<input type="checkbox"/>		replace rear tire	rear tire			
<input type="checkbox"/>		clean/inspect/lube swingarm bearings				
<input type="checkbox"/>		clean/inspect rear hub/bearing				
<input type="checkbox"/>						
<input type="checkbox"/>	Exhaust	check pipes, collector for rust holes/damage				
<input type="checkbox"/>		check pipe fittings for tightness/leaks				
<input type="checkbox"/>		replace muffler/up pipe	Delkevich high-right carbon			
<input type="checkbox"/>						
<input type="checkbox"/>	Engine covers/frame	clean/inspect/lube side stand				
<input type="checkbox"/>		clean/inspect/lube center stand				
<input type="checkbox"/>		clean/refinish alternator cover				
<input type="checkbox"/>		clean/refinish clutch cover				
<input type="checkbox"/>						
<input type="checkbox"/>	Reassembly/test	refill oil	3.3 qt oil			
<input type="checkbox"/>		refill coolant	coolant			
<input type="checkbox"/>		install/charge battery	battery			
<input type="checkbox"/>		install gas tank assy, add fuel				
<input type="checkbox"/>		test start engine, lights, gauges, etc				
<input type="checkbox"/>		test brakes, clutch action				
<input type="checkbox"/>		check/top fluid levels				
<input type="checkbox"/>						
<input type="checkbox"/>		replace upper right front cowl				
<input type="checkbox"/>		repair/install right turn signal assy	new light assembly (if needed)			
<input type="checkbox"/>		install new mirrors	2002 VFR800 style mirrors			
<input type="checkbox"/>		repair/replace cracked tail section pieces				
<input type="checkbox"/>		repair solo seat cowl				
<input type="checkbox"/>		paint faded/repainted body sections				
<input type="checkbox"/>		install fairings	body panel fasteners, frankenstein bolts			
<input type="checkbox"/>						
<input type="checkbox"/>					total	\$ 0.00
<input type="checkbox"/>	Later - if issues/	clean/inspect/test cooling fan switch/wiring				
<input type="checkbox"/>	Nice-to-have	shorten rear fender/remount plate/light				
<input type="checkbox"/>		replace front brake lever	front brake lever			
<input type="checkbox"/>		recover seat	vinyl			
<input type="checkbox"/>		replace right bar-end weight	weight			
<input type="checkbox"/>		replace handlebar stop-switch assembly	switch assembly
